Febry 3d, 1887.

Sir:

Your "Watson" medal has been struck and delivered to me by the Coiner.

It contains only $99.00 worth of gold but as the Mint does not adjust medals this is probably the best that can be done, unless it is imperatively necessary that it should be exactly $100. The medals and stands will cost $123.75. Please let me know whether it will be satisfactory before shipping.

Very respectfully,

April 16th 7

Sir:

In reply to your request for the items composing the balance of $686.82 in the Medal Fund Account for the quarter ending March 31, 1887 I have the honour to submit the following statement:

Old silver proof coins – 197 sets @ 194¢ per set	$382.18
Old minor proof coins – 87 sets @ 9¢ per set	7.83
Gold proof pieces 1887 – 4 double Eagles, ✓4 Eagles, 4 half Eagles, ✓8 Quarter Eagles, ✓8 three dollar pieces and 21 one dollar pieces.	205.00

2/

10 Trade dollars	$10.00
Cash	81.81
Total	$686.82

In further explanation of the matter that has led to these inquiries I have to say that the sales of gold proof pieces fell so far short of the number received from the Coiner that at the end of the quarter the Medal Clerk found himself swamped and was compelled to draw on that fund, especially as some of his payments are required to be made in gold.

Of the 115 pieces left on hand at the end of the quarter the Cashier received 25; the Coiner 41 and 49 are still in the hands of the Medal Clerk, not a single piece having gone outside of the Mint.

The value of these 115 pieces amounted to ~~$508~~, $524 while the Medal Clerk's quarterly payments, together with his customary quarterly deposit of $500 with the Assistant Treasurer U.S. left him but a balance of $186.82. In order to meet his obligations and still retain the 49 pieces of gold proofs amounting to $265 he was compelled to draw to some extent on the avail-

41

able funds of the present quarter.

The silver proofs in the balance at the end of the quarter, March 31, have been exchanged with the Cashier for notes and these appropriated to the quarterly deposit with the Assistant Treasurer, U.S.

This explanation, I trust, will be found sufficiently full and explicit.

Very Respectfully

SUPERINTENDENT'S OFFICE

May 7th 1887

Sir:

I herewith make categorical answers to the four propositions submitted in the last communication from the Bureau of the Mint concerning my account for the quarter ending March 31. 1887, as follows:

1. The cash was counted and there was found on hand in possession of the Medal Clerk at the close of business March 31. 1887 a balance of $686.82, Ex-

(2

clusive of 62 sets of silver and minor coins for 1887 and 254 minor proof sets for 1887, carried as stock.

2. The Medal Clerk discharged all of his indebtedness to the Cashier (and Coiner) for all coins prior to March 31. 1887.

3. The Medal Clerk *did not* "exchange subsequent to March 31. 1887" any silver proof coins of 1887" "with the Cashier for U. S. Treasury notes with which to deposit his profits."

4. "Proof coins" "of coinages prior to 1887" were not "retained in the hands of the Medal Clerk and current proof coins exchanged to obtain available funds to make deposit of the profits" since for that purpose all of the old proof coins in the hands of the Medal Clerk were required and used.

I can only approximate the prices as they depend upon the weight of the medals, this being governed by their thickness. As we do not adjust medals they vary somewhat, but not very considerably. The cost would be about $4.00 each for the silver and $1.60 each for the bronze. That is probably a little less than the average heretofore paid for these medals.

Mint of the United States at Philadelphia,

August 19th 1887

Sir:

I send you herewith enclosed "Report of Medals and Proof Coins" (Form G) for this Mint for the quarter ending June 30th according to the new schedule. The delay in its preparation has been unavoidable owing to the absence of employees and the pressure of other work.

Accompanying this report you will please find "Balance Sheet" for the same quarter made to correspond to the new form.

2

As you will observe it has been the custom heretofore to place on the debit side of the account only the profit on the gold proof pieces sold; but since I am charged with the face value of those pieces remaining unsold (in the new form) credit for the money with which they were purchased from the Coiner (amounting to \$43$^{\underline{52}}$) must be taken which has accordingly been done in the amended balance sheet

Sept 20th 1877

Sir:

I have examined the "abstracts" for the Medal Fund account accompanying your favor of the 14th inst. With two corrections which have been indicated on the papers they appear to be satisfactory so far as they go. There does not however seem to be any provision for the National or "stock" medals kept on hand and for sale at the Mint. As they are not sold on vouchers they cannot properly appear on "Abstract A", and yet there ought to be some simpler method devised than that of "Form G", the printed blanks of which were lately transmitted to this Mint. I would regard a statement showing the number of medals on hand, the number received from the Coiner the number sold and the number remaining unsold as sufficient without any attempt to embrace the estimated cost of those now in stock, since the Medal Clerk is responsible for the medals in his custody at their selling price.

November 21st 7

Sir:

I herewith return the papers comprising the Medal Fund account, the corrections having been made as indicated.

The discrepancy in the opening cash balance pointed out by a memorandum attached to the summary arose from the deduction of $\$143^{50}$ paid for single gold proof pieces embraced in the "Proofs" on hand at the beginning of the quarter and the face value as well as the premium on which is charged in the new

2

form, whereas according to the old form only the premium was taken into the account. This matter was explained in a communication from this office under date August 19. In order however to restore the original cash balance in conformity to the memorandum the proper credit for this amount has been given in the balance sheet [illegible] [illegible] by a full [illegible] item.

[illegible] of the Ten silver and fifty bronze [illegible] Indian [illegible] medals [illegible] carried as "Med[illegible] [illegible] amount, 3' $(\$60\frac{70}{u})$, has been deducted from the opening balance in accordance with your suggestion.

The medals in stock have been paid for out of the medal fund, bills having been rendered by the Coiner for the gold and silver ones as furnished, and the copper for the bronze medals having been bought in bulk and paid for out of the medal fund and used as required.

Very Respectfully

Dear Sir:

In replying to yours on the 12th inst I promised your medals on the 20th or 22d of this month.

I now find that it will be impossible to ship them before Saturday the 26th. The enormous pressure upon the Mint for the coinage of the silver dollar the 5¢ and 1¢ piece has put it out of my power to expedite your order. Trusting that this explanation will be satisfactory
